

Core: MGA-G550-B 133MHz 128bit
Memory: 32MB DDR 333MHz 64bit Year: 2001 Bus: AGP 4x Made: 180nm
Pixel pipelines: 2 TMU per pipeline: 2 DirectX: 6.0 OpenGL: 1.1 Pixel write speed: 266 MPixel/s
Texel write speed:
532
MTexel/s

## Memory bandwith:

2664 MB/s

## Supported technologies:

AGP Texturing
Additive Texture Blending
Bilinear Filtering
Environmental Bump Mapping
Environmental Bump Mapping With Luminance
Factor Alpha Blending
Multiplicative Texture Blending
Point Primitive Support
Point Sampling
Positional Lights
Rendering to a Window
Specular Gouraud Shading
Stencil Buffers
Subpixel Accurate Rasterizing
Subtractive Texture Blending
Table Fog
Texture Alpha Blending
Texture Clamping
Texture Wrapping
Trilinear Filtering
Vertex Alpha Blending
Vertex Fog
W-Fog
